

CLAIMS

What is claimed is:

1. A decorative system for a kitchen appliance comprising:

a decorative element, said decorative element is attached to an exterior surface of said kitchen appliance; and

whereby said decorative element is in the form to provide the kitchen appliance with a look which matches a decor of a kitchen in which the kitchen appliance is located, make the appliance easier to clean, and improve the insulation of the appliance relative to conventional kitchen appliances.
2. The decorative system of claim 1, wherein said kitchen appliance is a microwave oven.
3. The decorative system of claim 1, wherein said decorative element is attached to said exterior surface of said kitchen appliance by bonding means.
4. The decorative system of claim 1, wherein said bonding means is a doubled sided adhesive sticky tape.
5. The decorative system of claim 1, wherein said decorative element is a ceramic element.
6. The decorative system of claim 4, wherein said ceramic element is a ceramic strip.
7. The decorative system of claim 1, wherein said decorative element has a decorative pattern located thereon.
8. The decorative system of claim 1, further comprising a plurality of variably sized and

shaped decorative elements to be affixed onto different areas of said exterior surface of said kitchen appliance.

9. The decorative system of claim 1, further comprising a pair of protective members which wrap along edges of the at least decorative element to protect the decorative element

10. A decorative ceramic system for a microwave oven comprising:

a plurality of decorative ceramic elements;

bonding means, said plurality of decorative ceramic elements are bonded to exterior surfaces on said microwave oven via said bonding means; and

whereby said plurality of decorative ceramic elements is in the form to provide the microwave oven with a look which matches a decor of a kitchen in which the microwave oven is located, make the microwave oven easier to clean, and improve the insulation of the microwave oven relative to conventional microwave ovens.

11. The decorative ceramic system of claim 10, wherein at least one of said plurality of ceramic elements has a decorative pattern located thereon.

12. The decorative ceramic system of claim 10, wherein said plurality of decorative ceramic elements are decorative ceramic strips.

13. The decorative system of claim 10, wherein said bonding means comprises double sided adhesive tape.

14. A method for providing a decor to a kitchen appliance which matches the decor of a kitchen in which the kitchen appliance is located, comprising the steps of:
selecting at least one decorative element to be affixed onto a chosen exterior surface of the kitchen appliance;

applying bonding means to said at least one decorative element and/or to said chosen exterior surface of said kitchen appliance;

affixing said decorative element to said chosen exterior surface of said kitchen appliance via said bonding means; and

repeating the above steps, if desired, with another decorative element.

15. The method of claim 14, wherein said kitchen appliance is a microwave oven.
16. The method of claim 14, wherein said bonding means comprises double sided adhesive sticky tape.
17. The method of claim 14, wherein said decorative element is a ceramic element.
18. The method of claim 17, wherein said ceramic element is a ceramic strip.
19. The method of claim 14, wherein said decorative element has a decorative pattern located thereon.
20. The method of claim 14, further comprising adding a plurality of variably sized and shaped decorative elements to be affixed onto different areas of said exterior surface of said kitchen appliance.
